OPTICS—SCOPES

TR one Series: 4-16x50mm AO

Nitrex[™] Optics continues their tough and rugged reputation with the expansion of the TR one series of riflescopes. The new 4-16x50mm AO scope contains all the same great features of the entire Nitrex TR one line, but brings an additional magnification range that fills a void among hunters and avid target shooters.

Features & Benefits

- Versatile magnification range ideal for both hunters and target shooters
- Fogproof/shockproof/waterproof performance
- Trex[™] 3-point Precision Adjustment System
- TruCoat[™] fully multi-coated lenses
- 1" tubes with one-piece construction
- Adjustable objective for long range shooting and parallax removal
